# **NOVALLOY B series**

PBT/ABS resin

# **Properties**

### **BM554K**

**COLOR No. 53930** 

Carbon fiber/Glass fiber-reinforced flame-retardant PBT/ABS resin (CF/GF20%) Conductive

| Properties                        | Test methods     | Test conditions | Units |           |
|-----------------------------------|------------------|-----------------|-------|-----------|
| Mold shrinkage                    | Daicel<br>method | -               | %     | 0.1-0.3   |
| Tensile strength                  | ISO 527          | -               | MPa   | 130       |
| Flexural strength                 | ISO 178          | -               | MPa   | 205       |
| Flexural modulus                  | ISO 178          | -               | MPa   | 11000     |
| Notched Charpy impact strength    | ISO 179/1eA      | 23 deg C        | kJ/m2 | 6         |
| Deflection temperature under load | ISO 75           | 1.80MPa         | deg C | 155       |
| Flammability                      | UL94             | -               | -     | V-0/1.2mm |
| Volume resistivity                | Daicel<br>method | -               | ohm*m | 1E0       |
| Surface resistivity               | Daicel<br>method | - ohm           |       | 4E2       |
| Density                           | ISO 1183         | -               | g/cm3 | 1.40      |

#### Note

- •Test methods such as ISO standards are fully or almost compliant with the standards.
- ·Values are typical, not quality assured.
- •Resistivity was measured with two-terminal technique (Daicel method).
- •UL recognition File No. is E47773.
- •The colorant formulations are restricted for each UL certified color. Please contact us for more information.

### Typical settings for processing

|                       | Barrel temperature(deg C) |         |         | Screw rotation | Back pressure | Mold temperature |         |
|-----------------------|---------------------------|---------|---------|----------------|---------------|------------------|---------|
| Preliminary drying    | Nozzle                    | Front   | Middle  | Back           | (rpm)         | (MPa)            | (deg C) |
| 3-5hrs<br>80-120deg C | 230-250                   | 240-260 | 220-240 | 200-220        | 50-100        | 5-20             | 40-80   |
